👤 PROFILE

I am a Cloud Engineer at Virtusa, where I design and implement reliable, scalable, and secure cloud infrastructure for various clients using Google Cloud Platform (GCP) and terraform. I have a Google Cloud certification as a Professional Cloud Architect, which demonstrates my expertise and passion for cloud technologies. I have hands-on experience with all the Infra services, including Velostrata for migration, Stack driver for logging and monitoring, and Big Query for data analysis. I also pay special attention to security aspects and best practices, and I troubleshoot and optimize the performance and availability of the cloud systems.

In addition to my cloud engineering skills, I also have a keen interest in web development, especially using HTML, CSS, and JavaScript. I enjoy creating responsive and user-friendly websites, and I have several web projects on my GitHub profile. I have a Bachelor of Technology in Information Technology from JB Institute of Engineering and Technology, where I learned the fundamentals of computer science and software development. I am always eager to learn new things and apply them to my routine. I value vigilance, logic, and research in my work, and I strive to convert business requirements into foolproof designs. I collaborate closely with my team and communicate effectively with the clients and stakeholders. I am also socially conscious, ambivert, polyglot, and altruistic, and I find new ways to connect with people and society.

💼 EMPLOYMENT HISTORY

Cloud Engineer at Spring Source Technologies, Bengaluru
April 2021 — March 2022

Worked as Infra Admin on Google Cloud Platform, have assisted the infrastructure operations for the servers hosted in Cloud Platform for all the environments.

Student Fundraiser at HelpAge India, Vijayawada
November 2006 — February 2007

HelpAge India recorded its special appreciation of my efforts in creating awareness and assisting in raising funds for the care of the elderly, irrespective of race, religion, caste or creed.

- An appreciation was awarded for my approach to raising funds. I have gathered funds by working small jobs at my father's workplace. This way, employees working there recognized the organization and its cause. This helped spread awareness about the problems elderly people face when estranged.

- HelpAge India is registered as a secular social service society with No.S/9270 under the Societies Registration Act XXI, (1860). Please support the cause if you are interested. Know more about HelpAge India here: https://www.helpageindia.org/

◀ REFERENCES

Keerthi Babu Boyilla

I wanted to share my strong recommendation for Joshua. He's an exceptional team player who consistently demonstrates a deep understanding of our project and the team's needs. His flexibility in adapting to various situations is truly valuable. Beyond his teamwork, Joshua played a crucial role in successfully navigating a recent customer technical interview. He invested significant effort in understanding the customer's concerns and effectively building their confidence. His dedication was instrumental in securing their trust, which ultimately led to the customer requesting him for an onsite assignment and directly expressing their appreciation for his work. I believe Joshua's combination of technical understanding, collaborative spirit, and dedication to customer success makes him a highly asset to any team.
